

Reference for DJ Cazual

Dated: April 2026

I have had the pleasure of working with DJ Cazual on large-scale events since 2021, across multiple U.S. states and internationally through my company Libertine Events.

DJ Cazual is not only a highly skilled DJ who can read a room exceptionally well and adjust the energy of a space in real time, but he also brings valuable technical knowledge in audio-visual setup and production programming. His ability to support both the musical experience and the technical execution of an event makes him a rare and valuable asset for producers.

It is uncommon to find a DJ with such a broad and versatile skill set. In addition to his DJ capabilities, DJ Cazual is also an experienced and confident Emcee who knows how to engage guests and elevate the overall atmosphere of an event.

Musically, his range is extensive. He comfortably moves between current hits, old-school R&B, country, rock, EDM, and custom remixes, including his own original productions and refreshed electronic interpretations of classic tracks. This flexibility allows him to perform successfully in both intimate settings and large-scale international productions.

I highly recommend DJ Cazual to fellow event producers. His versatility, professionalism, and ability to support both creative direction and technical delivery make him an outstanding addition to any event team.

Please feel free to reach out if you would like additional information.

Best Regards,

Catherine Prince
